

## MobileConnect Hearing System Guide

This venue is equipped with the **Sennheiser MobileConnect** communication system allowing you to turn your smartphone into a **talk-back microphone** and **personal hearing device**.

- 1) Please check your mobile device for the required headphone or hearing aid connection. **Please ensure that you bring your headphone set with you.**
- 2) Please scan the QR code to download and install the software application, preferably prior to your arrival at the venue.

**Download FREE now**

Available for iOS and Android.

- 3) Make your way to the auditorium.  
Once in the auditorium you will need to change your Wi-Fi settings on your phone and connect to **MobileConnect**.  
There is no internet connection on this Wi-Fi.

## MobileConnect Hearing System Guide
